### Platform Notes

- Most free plans are for limited use of LLMs during non-peak hours.
- ChatGPT, Claude, Copilot, Gemini, Perplexity, Poe, Vercel & You plans start at \$20/mo.
- ChatGPT Plus (paid), Microsoft Copilots (paid), HuggingChat (free), and Poe (free/paid) allow you to create custom AI chat experiences.
- Paid users get access to alpha and beta features first.
- Consoles and Playgrounds are generally for developer testing and research.
- The Vercel AI Playground lets users test two model responses side by side.
- Grok, powered by tweets, is included in X Premium+ plans starting at \$16/mo.
- Meta AI uses Llama 2 and Emu for image generation. Also available via Instagram and WhatsApp.
- Pi is also available through Instagram, Messenger, WhatsApp, Telegram, and Apple Messages.
- You offers an "uncensored" model, Zephyr-Mistral 7B.

### Model Notes

- GPT-4V and Claude-3 accept text and image input.
- Gemini Pro and Ultra accept video input.
- Claude-3 has largest context window at 200k.
